INTRODUCTION

Logistics in the 21st century demand more than meeting tight deadlines while operating with optimal safety. Increased business process needs, innovations and technology advances escalates expectations to ensure not only a smooth logistics overall process but with optimal relief from the stress that may come from managing the logistics process . Unlike traditional logistics service providers Afex understands the needs of its partners and adapts to these needs for an overall peace of mind in the supply chain process. This is what we deliver, trust. The trust that we will always be there and deliver to your business logistics needs.

> Afex, a third-party logistics provider (3PL), manages all or part of your company's logistics operations, executing freight management, transportation, and business processes. Afex manages and coordinates functions for more significant transportation and supply-chain efficiencies.

MORE THAN A THIRD PARTY LOGISTICS PROVIDER

Companies use Afex for third-party logistics to manage short and long-term logistics operations more productively and more cost-effectively. Afex understands the increasing challenges of today's global logistics. Never neglecting the basics of speed and efficiency, they furnish strategic logistical solutions with the latest technology and business processes.

Save Time

Afex saves your company the time you usually spend managing your supply chain. Eliminate costly mistakes and the time required to put things right. Manufacturers, traders, supply chain managers, retailers, and oil and gas companies find this superior service level supports both domestic and international transportation services.

Industry Knowledge

Afex accurately forecasts what logistics solutions work best. They have technology to produce advanced reports and inventory management that track the entire logistics process. Over the last 25 years, Afex has remained committed to the application of substantial market knowledge to handle client shipments efficiently, safely and securely.

Economic Efficiencies

Lower transportation rates help reduce lost sales and return goods costs. Take advantage of the relationships Afex has developed over 25 years with national and international carriers and freight brokers. Lower rates to eliminate unnecessary costs.

Shipping Volumes

Afex gives you year 'round access to the shipping volumes you require. Their ongoing relationships with a multitude of carriers support even widely fluctuating freight volumes. Plus, optimize your inventory with warehouse management services.

Continual Improvements

Afex modifies each connection in your supply-chain as necessary. Your company benefits without a continuous internal focus on your logistics process when you outsource your logistics to Afex.

OUR STORY

We're transporters, logisticians, strategists, and reliable team members for our business partners

1

At Afex, we have three decades of experience in the logistics industry, producing time & cost-saving transport experiences for domestic and international shipments to our clients.

2

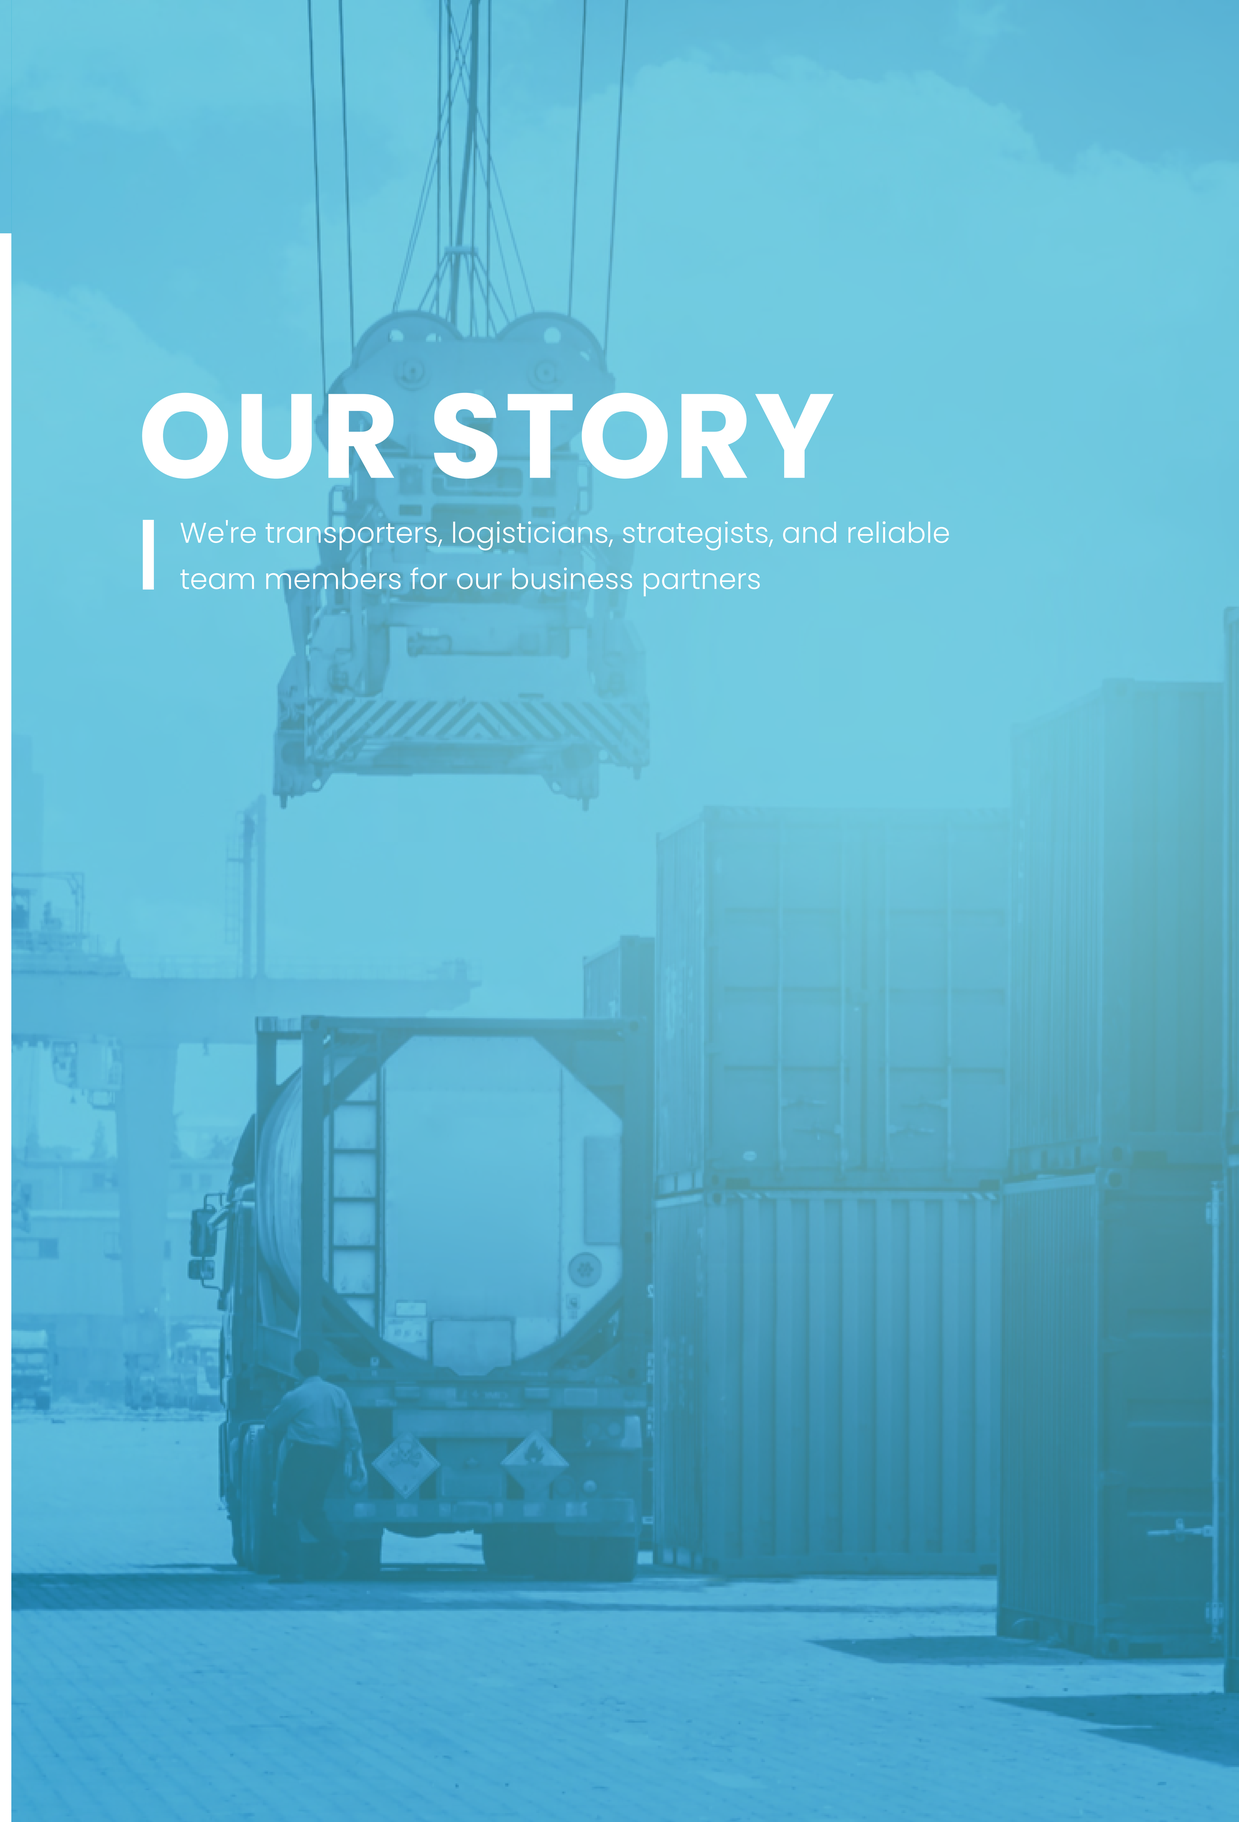
Our story begins in the 1990's as Abdullah Dihan Trading (ADT) Logistics. Since then, we have transformed significantlly. Initially servicing only the oil and gas sector , we now fulfill trucking and logistics needs to factories, retailers and general traders along with our valued clients from the oil and gas sector.

3

Then, in 2018, we joined the renowned Alrushaid Group, a leading conglomerate in the Middle East, principally involved in energy ,manufacturing, construction, engineering, trading, commercial real estate and technology.

4

Now with the technical expertise, considerable industry knowledge and vast experience working across-sectors that has driven us onward towards continual innovation. We now proudly serve as a primary provider of logistics services for internationally renowned companies throughout the Middle East with a focus on the Eastern Region of Saudi Arabia, the hub of global energy.



OUR SERVICES

Explore Afex logistics solutions for integrated supply-chain services. Unique results tailored to meet your specific requirements for short-term and long-term solutions that span across diverse market sectors. Afex offers a wide range of services to continue the legacy of nurturing supply-chain efficiency and adherence to a diligent culture of safety.

Land Transport

Afex is one of the leading logistics & transportation providers in the Gulf Cooperation Council countries. Strategically placed terminals allow infrastructure support for Full Truck Load (FTL), Less Than a Truck Load (LTL) and Parcel Loads .

Afex offers land transport solutions for local transport, import and export around the world to quickly and safely manage cargo transportation from origin to destination. Smart logistics tailor-made to your project specifications.

- Unloading & Packing
- Container Storage
- Domestic and international transport
- Overland Storage
- Client Dedicated Fleets

WHAT WE DO?

STRENGTHEN YOUR SUPPLY CHAIN

A supply chain is only as efficient as its weakest link. Each link influences the strength and cohesion of the entire chain, but the focus remains on transportation & logistics. Land transport is the link that determines if a supply chain successfully meets objectives. An upgrade to the transportation link strengthens the overall supply chain to compete more effectively.

Afex, a third-party logistics provider (3PL), manages all or part of your company's logistics operations, executing freight management, transportation, and business processes. Afex manages and coordinates functions for more significant transportation and supply-chain efficiencies.

Hazardous materials

Secure Freight

Oversized & Extra Heavy Loads

Exclusive, Reserved Fleets

Regular Freight Types

Customs clearance staff specialize in the management of international land shipments, reducing delivery delays and unnecessary expenses. Plus, you receive real-time updates to follow the load itself.

Move your containerized, palletized, general, or bulk cargo, pipes, road tankers, curtain siders, or bulk liquid carriers with Afex. Store your palletized or bulk products with customized solutions for every project.

Afex organizes land transport from the collection point to the final delivery location following all import, export & customs regulations.

Afex representatives await your inquiry, happy to assist scheduling for your overland transportation services.

FREIGHT TYPES & SOLUTIONS

Using centralized logistics solutions, Afex offers transportation solutions for all types of cargo.

- Over 200 operated trucks daily in the Afex Fleet access & management - flatbeds, low-bed trailers, off-road trucking equipment, cranes, forklifts, ISO Tanks & approved trailers
- Partial Truckloads (LTL) delivery capabilities
- Parcel Loads overland shipping
- National and international routes
- General and special cargo (solid, liquid)
- Skilled team oversight throughout the entire process
- GPS for live and continuous tracking
- Long-term, dedicated fleets at your services

Contact Afex today for your land transport needs to improve your supply chains, nationally & internationally.

Heavy Lifting

Plant maintenance & industrial construction projects require heavy lifting support for new construction, expansions, upgrades, facility maintenance, and rapid response for emergencies.

Whenever large or heavy components need lifting, Afex is there. The right equipment, experience & expertise makes your heavy lifting light work.

Heavy Lifting Services

Skilled Convoy Team

Plant Turnaround & Shutdown Management

Heavy Transport Services

Rapid Response

Modular Construction Services

Factory-to-Foundation Logistics

Relocation & Decommissioning Support

Contract Services

Afex works to safeguard the staff, the load, equipment and nearby structures while organizing the project for optimal efficiency, to maximize uptime.

Afex heavy lifting services support every major industrial sector finding ways to shorten the critical path using carefully planned and implemented lifting operations.

With a wealth of experience in delivering oversized products & materials to a variety of destinations, Afex provides solutions for transporting, lifting, installing & decommissioning large and heavy structures over 25 metric tonnes.

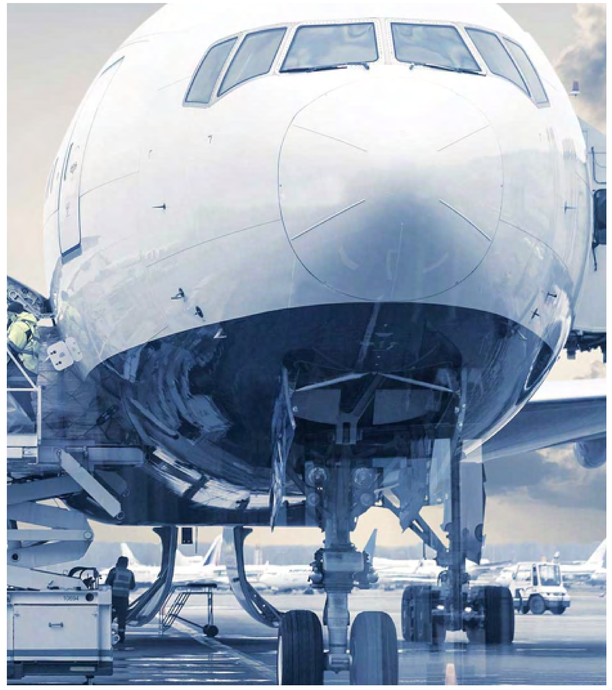
Air Freight

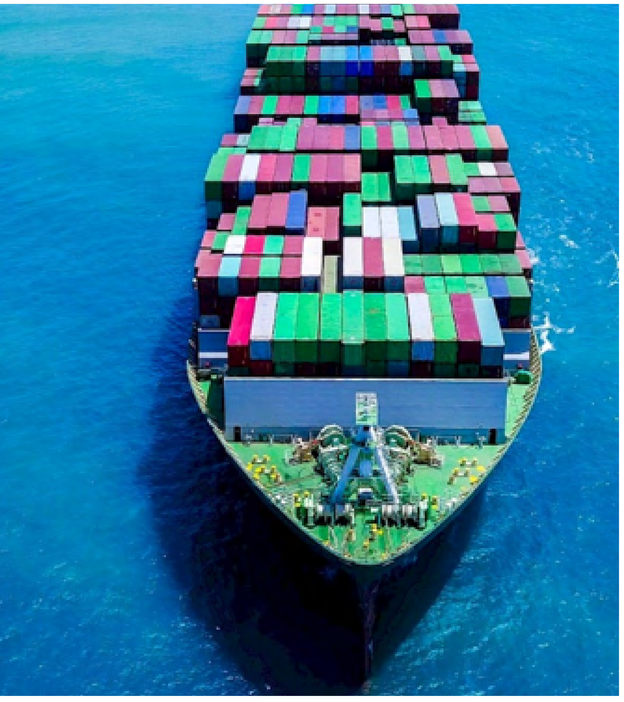
Afex specializes in expert national and international air freight services with tailored solutions for each client project.

The air cargo division of Afex is equipped with modern technology and an extended global network in over 100 countries to enable local assistance throughout your supply chain for every shipment.

The logistics experts handling every aspect of your air freight are available 24/7 to analyze and monitor every aspect of your air freight shipments.

Afex has access to a wide variety of operators and aircraft to offer air freight solutions regardless of size, weight, time or place. Start improving your air freight logistics with Afex, today.





Sea Freight

Thousands of goods travel the seas every day because sea freight is one of the most reliable and cost-effective transportation options in the world. Afex adds safety & hassle-free logistics covering all major destinations across the globe. Long-term shipping agreements with Afex assure your sea freight shipments arrive safely & on time, every time.

Customized sea freight options include secure transport for refrigerated or sensitive cargo like food, clothing, medication with specialized teams for special equipment like Flat Racks, Open Tops, Reefers.

Afex follows all pertinent shipping regulations for national & international compliance of every shipment, managing both LCL and FCL cargo shipments efficiently.

Hazardous Materials Transportation

Afex has almost three decades of experience with hazardous materials transportation. The logistics of shipping hazardous materials is far more complex than any other freight type.

Dangerous shipping mistakes and delayed or denied entry problems make hazardous materials more challenging.

Afex assures every shipment complies with the International Air Transport Association and follows International Maritime Dangerous Goods codes.

Each package is carefully labelled, classified, packaged, and documented for safety and your peace of mind.

All ISO standards, Chemical Hazard Bulletin guidlines, Material Safety Data Sheets (MSDS), and Ministry of Transportation guidelines and standards are diligently followed for transporting hazardous materials at their different states of matter.

Oil Rig Moves

Moving oil rigs requires rigorous schedules, coordinated teams & expert knowledge. The safety-conscious team at Afex has been servicing the gas & oil industry since the 1990s. They manage complex oil rig moves from the old site to your new site supported

Afex can make multiple oil rig moves at a time, having moved over 150 oil rigs for premier oil and gas companies in the Eastern Province. Afex leads the industry in the implementation of oil rig innovations to continually reduce move cycle times.

Need rigs moved?

TRUST AFEX TO GET THE JOB DONE.

Handling Industrial Relocation Projects

Delays, cost overruns, and excessive downtime plague many industrial relocation projects.

Afex is an expert in handling industrial relocations.

The dedicated Afex team, with decades of world-wide relocation skills, manages the process, so your team stays focused on your business.

Industrial relocation becomes a much smoother process with an experienced, trusted partner to handle every detail of every move.

Make your relocation projects as smooth as possible, with Afex.

- Potential risks are identified and minimized.
- Everything is inspected, and quick action resolves defects or damage on the receiving end.
- Sophisticated technology monitors the entire relocation process.
- Turnkey industrial relocation services for rigging, plant closures, and both short-term or long-term warehousing.
- A total solution including packing inventory & materials, disassembling machinery & coordinating shipping, domestic or international. Unpacking, checking for quality, & reassembly of every detail.

Warehousing Management & Storage

Your warehouse logistics involve the organizational tools, policies & procedures that keep your operations running at peak efficiency.

Warehouse logistics extend from damaged goods handling & safety policies to customer returns.

Cost controls, security, risk, supply chain and inventory management make it difficult to compete, provide customer service, and protect revenue. These are the challenges that face warehouses today.

- Decreased Returns
- Fewer Picking Errors
- Maximized Warehouse Space
- Improved Visibility
- Stock traceability
- Accurate, Real-Time Inventory Counts
- Improved Customer Service
- Efficient Stocking Policies
- Set Annual Inventory Control Budgets

STRENGTHEN YOUR SUPPLY CHAIN

As Afex passes on the benefits of an automated inventory control system, you optimize your purchasing and replenishment strategies.

Typically, warehouse management activities include storing, moving, and collecting items for shipment.

Large projects are often separated into several tasks and integrated by a directed workflow.

With access to 12 warehousing facilities in all major cities in KSA, Afex provides container de-vanning & stuffing, warehousing, and distribution. Value-added services include re-palletizing, wrapping, weighing, packaging & consolidating loads for onward delivery.

M ove towards real long-term warehouse efficiency with an analysis from Afex.

Passenger Transportation

Passenger transportation in unfamiliar areas can be a logistical nightmare. The fundamental differences between freight & passenger transportation involve distinct facilities & locations.

Afex manages the logistics of passenger vehicle rentals, including buses, shipment vans, passenger vans, and all specifications of cars for groups or individuals.

Get where you are going,
stress-free, every time, with

AFEX

Operational Excellence

At Afex, operational excellence is a problem-solving and leadership philosophy that embraces continuous improvement. This is not a list of activities we perform. It is a mindset held by every team member at Afex. We focus on these core values at every level.
